World History/Israel-Palestine/International Law/
What was the result of the US abstaining in the Security Council on the resolution on Israel's continuing building settlements.
Is the settlements building continued occupation, continued militarization, or militarized colonialism?

Below are links to two new articles of mine posted this week on the disastrous policies forthcoming under a Trump administration on Israel/Palestine and how the Democratic Party is supporting a number of them.

This article from the National Catholic Reporter describes how this will likely mean the end of any realistic hopes for a two-state solution: https://www.ncronline.org/blogs/ncr-today/hope-fades-two-state-solution-israeli-palestinian-conflict

And this article from Foreign Policy in Focus describes the recent vote in the U.S. House of Representatives in which a majority of Democrats joined Republicans in siding with Trump against Obama regarding Israeli settlements, international law, and the role of the United Nations: http://fpif.org/democrats-blowing-middle-east-peace/
